

You are so far away and so often in my mind

“KROK” Alumni Association celebrated Birthday

13 July “KROK” UAA celebrated its 8th Birthday. The event supposed to be a barbeque party, but due to a very rainy day, the celebration took place in the Hall of KROK University. After the official part of the event,

where Svitlana congratulated the alumni, remembered the best moments and achievements of KROK UAA, the participants enjoyed delicious grill, salads, famous Svitlana`s pancakes, mojito, as well as communication with each other. The zest of the party were workshops. At the first workshop, the participants had fun playing djembe, darbuka (African drums), body percussion - shakers and Cuban rattle. Energetic,

very skilled and jolly leader of the Djembuka Rhythm School, trained the audience. Yeah, this was a real pleasure! The party continued with dancing workshop and long conversation between KROK University Rector, Sergiy M.Laptiev and alumni. Despite the weather, the Party was a success, combining networking, fun and training.

Invitation of new members to Business League - an example how KROK does this

Svitlana Zaripova visits every graduation ceremony and delivers a speech about joining Alumni Association and Business League. She tells about the benefits of alumni-university cooperation, interaction and support between members, key services, provided by Business League and partners. Of course, EANET project is mentioned every ceremony. **As a result, new members are acquired.**

Monitoring visit in Ukraine

1 July 2015 "KROK" University hosted monitoring of EANET project with participation of project teams from Yuriy Fedkovych Chernivtsi National University, Kharkiv National Automobile and Highway University, V.N. Karazin Kharkiv National University and "KROK" University. Monitoring is a mandatory step of the Tempus projects implementation and was performed by National Erasmus+ Office. The meeting was held at beautiful and specific place - Headquarter of Business League KROK UAA. Project teams presented the achieved and expected results of the project, communicated with representatives of the National Erasmus+ office on issues of management, finance, communication, sustainability and dissemination. Meetings with lecturers and alumni entrepreneurs of "KROK" University were organized. Representatives of the National Erasmus+ office positively assessed the results of the activities of the Ukrainian teams and the consortium as a whole, provided recommendations on further project implementation. In particular they noted the following:

Partner universities created the necessary management structures that are functioning rather well

Communication in the project is established, Team spirit, mutual help and support exists, The project is implemented according to the plan, project progress exists. Project teams are aware of their obligations under the work packages, understand their sphere of responsibility and are persistent in performing tasks. Project teams are focused on results, not just on process, they are aware what results are expected at the end of each work package.

Project teams work closely with Project Coordinator Michael Tuguntke and appreciate his support

As for dissemination, some effort are invested, but the discussion should be continued. Associations of the partners are more focused on regional and national level, the communication can also be made at lower levels (institutional and deans` level), EANET logo is beautiful, it can be used more often for project visibility. Continue to discuss the project sustainability, including model and strategy of functioning of associations at the European level.

Project teams can discuss the feasibility and forms of cooperation with other networks. The project team can consider students as a target group, and start working with students since 1 course, which generally will support the spirit and culture of entrepreneurship. The lecturer is also a target audience, he/she may be alumnus and entrepreneur. Ministry of Education and Science of Ukraine is a partner of the project and should be involved to project activities. In case if a question or a problem appears, it should be discussed with Grant Holder first, if the issue is not resolved - reference to the National Erasmus+ office should be made.

Purchase of the equipment is in the process of discussion, partners must decide whether to purchase equipment in Ukraine or in EU. There is still the opportunity to make changes to the equipment list, but this issue should not be postponed.

National Erasmus + office has the possibility to involve Channel 5 (popular TV Channel in Ukraine) to the dissemination of the project. Inter-projects cooperation can be discussed. The list of the current project with related topics will be provided by National Erasmus+ office.

We are waiting for the official report of the monitoring, which will be sent EACEA and Project Coordinator soon. Project Manager, Michael Tuguntke, supported the Ukrainian teams, wished success at the beginning of the monitoring and was ready to get involved to the meeting via Skype. So, dear Michael, thank you for your involvement from all Ukrainian teams!!!

EACEA Stakeholder meeting at HVA

Amsterdam July 6th 4 pm..HvA EANET stakeholder meeting was planned and organized at studio HVA. 35 people were expected to come but in real there were 16 people. “End of year troubles” withhold some stakeholders to come. But we learned from [bird in hand principle of Saras D. Sarasvathy](#) that we have to work with what we have. [With this link you can find the prezi](#) I have shown to all participants (mainly in Dutch). My yield of the day:

- 2 business cards of interested entrepreneurs,
- 16 stakeholders are updated,
- 1 sailing trip on the “IJsselmeer” last Monday.

Michael

Targets for upcoming PSCM and training

Results of your participation at the evaluation:

As a result of the evaluations of steering committee meeting and training in Chernivtsi we will focus on the following items in preparation of the next meeting and training:

(1) Steering Committee Meeting:

a) Content Activities:

- Communication within the project
- Presentations of wp owners (your average impression)

b) Meeting Outcomes:

- The procedures for handling the budget, accounting, and payments is fully clear to me

(2) Training:

Content Oriented Activities:

- Knowledge of HEI management commitment and its importance
- Development of a milestone plan per HEI to give guidance
- Understanding of different solutions for data bases and get ideas which one to use best for your EAN

Our compliments to all those of you who are engaged in improving our project!

Jens from CHE consult
